THE SOLDIER IN THE MINE

Slow as slow can be, However its a damn good title especially considering the price point. Story wont blow anyone away but enjoyed all the same. Great new dilemmas. Smart Meters are recommended ASAP!. great puzzle game of a kind i usually play to spend some time thinking.

there are a lot of similar games for mobile platforms, that are connected to accelerometer, in this one made for pc there are no accelerometer and you operate with keyboard buttons, but its fun to play - game's pretty simple, the ball does not have any peculiar abilities, you roll and gather burning totem images, however, you are given different beautifully visualized levels, environments - they are so beautiful the game requires nearly 5gb to download - but who cares in 21st century, the age of broadband connections and big harddrives :)))

games pretty cheap, has gaming cards you can sell, so why don't buy it?

i recommend for anyone who loves puzzle games of this kind.. Great puzzle game with good mechanics and UI.

Best one i have come across of its type up to now.

Easy to use editor to make own levels for others to play and share.

I do not use VR and it plays great without.. Even though there is no nude patch, all the girls are worth it and are some nice eye candy. Interesting gameplay and worth some hours of entertainment.. I normally don't write negative reviews, but as a massive fan of the original I just couldn't help myself as it doesn't do it justice. This isn't just because of a lack of nostalgia for a classic, this is a game that does not stand up on its own. Average graphics, clunky game play and overall generic sci-fi tone is a big step backwards from the original and so many other games that do it better.

I really wish developers and publishers wouldn't piggy back off of other great titles names. But if you want a unique experience that set a standard for a lot of games today, check out the original.

Small shout out too needing U-play as always :(

. This game has everything you could want in a next gen cutting edge graphix xcorex duck game!!!!!!!!!!!!. This game would be amazing if there was a way to mute the looped music and sound effects.

Cannot recommend until this is fixed.

Got this and was actually surprised how much fun it is. Though it is what you would expect out of a \$.99 game, after about 2 hours you have done all the achievements and the game is done, or is it?. Simply yet addictive game. Just run into enemies to attack them or use any of the four skills you have in your arsenal. The story is pretty solid about a girl looking for her lost sister. This game have about 3 endings,. my mom really loves this freaking game.

301 hours played as of 10/29/15. STOOOOOP!!!! (\u00b0\u030ed\u00b0). Game crashes on launch for many users (nearly all of the forum posts are about this issue). Would like to give it a proper review when this is fixed, but be warned that there's a good chance you won't even be able to play the game after purchase.. Personally, I enjoyed this visual novel. I bought it despite some of the bad reviews, as it was cheap, and was pleasantly surprised.

The writing does lean towards excess, and could do with some editing - for example, a lengthy description of Kira's appearance is not necessary, as we see her sprite and already know about her apple-green eyes.

I loved the odd sense of place this game had. It felt somewhat familiar, yet alien. I also liked the way the story emerged as a series of vignettes - again though, there are some loose ends and the transitions in some places were a bit confusing. In one instance, art appears before the writing has caught up, leaving me confused as to why the protagonist was talking about Kira walking away when the art shows her smiling with a fishing net.

I liked the ending, but the lengthy explanation Kira gives felt a tad clumsy. I also disliked how every ending has Kira deciding to be good, either before or after she murders the protagonist

The game is very short, it took me under an hour to 100% it.

All in all, this is just what I think. The bad reviews raise good points, but for me the good outweighed the bad in the end.. Every level is in exercise in a game of "Where exactly is my hitbox?". my favorite character
